Use Cases for AI: Site Page Ideas

AL

What kind of pages should a car dealership website have?

A car dealership website should have the following pages:

1. Home page - A clear overview of the dealership, its location, and contact information.
2. New Cars - A page displaying the new cars available for purchase, including make, model, and pricing.
3. Used Cars - A page displaying the used cars available for purchase, including make, model, year, and pricing.
4. Specials - A page displaying any current promotions or special deals being offered by the dealership.
5. Finance - A page providing information about financing options for purchasing a car, including loan calculators and pre-approval forms.
6. Service - A page providing information about the dealership's service center, including hours of operation, services offered, and appointment scheduling.
7. Parts - A page displaying the dealership's parts department, including information about warranties and specials.
8. About - A page providing information about the dealership's history, mission, and staff.
9. Contact - A page providing the dealership's contact information, including address, phone number, and an email contact form.
10. Test Drive - A page where customer can schedule a test drive and also can see the available cars for test drive

10. "The most fuel-efficient cars on the market today"

Google's stance on AI Content

Google Search's guidance about AI-generated content

[Send feedback](#)

Wednesday, February 8, 2023

At Google, we've long believed in the power of AI to transform the ability to deliver helpful information. In this post, we'll share more about how AI-generated content fits into our long-standing approach to show helpful content to people on Search.

Rewarding high-quality content, **however it is produced**

Google's ranking systems aim to reward original, high-quality content that demonstrates qualities of what we call E-E-A-T: expertise, experience, authoritativeness, and trustworthiness. We share more about this [in our How Search Works site](#).

Our focus on the quality of content, rather than how content is produced, is a useful guide that has helped us deliver reliable, high quality results to users for years.

For example, about 10 years ago, there were understandable concerns about a rise in mass-produced yet human-generated content. No one would have thought it reasonable for us to declare a ban on all human-generated content in response. Instead, it made more sense to improve our systems to reward quality content, [as we did](#).

Focusing on rewarding quality content has been core to Google since we began. It continues today, including through our [ranking systems](#) designed to [surface reliable information](#) and our [helpful content system](#). The helpful content system was introduced last year to better ensure those searching get content created primarily for people, rather than for search ranking purposes.

Use Cases for AI: Yes, content***

write 250 words on the history of the Mercedes GLS

The Mercedes GLS is a luxury SUV that has become a popular choice for those seeking a comfortable and spacious vehicle. The GLS was first introduced in 2006 as the Mercedes-Benz GL-Class, and was later renamed the GLS in 2016. The SUV was designed as a replacement for the G-Class, which had been in production since 1979.

The GL-Class was initially available with a choice of two engines: a 4.7-liter V8 or a 5.5-liter V8. Both engines were mated to a seven-speed automatic transmission and offered a range of features such as a panoramic sunroof, heated front seats, and power-folding third-row seats. The GL-Class also had a range of safety features, including adaptive cruise control, lane departure warning, and blind spot monitoring.

In 2012, the GL-Class was given a mid-cycle refresh, which included updates to the exterior styling and an improved interior. The SUV also received a new engine option, a 3.0-liter V6 diesel engine. This engine was mated to a seven-speed automatic transmission and provided improved fuel efficiency.

In 2016, the GL-Class was renamed the GLS and given another update. The new GLS featured an updated exterior design, improved safety features, and a new nine-speed automatic transmission. The SUV was also available with a new 3.0-liter V6 gasoline engine and a 4.7-liter V8 gasoline engine.

Today, the GLS remains a popular choice for those seeking a luxury SUV. The latest model is available with a range of features, including a panoramic sunroof, heated front and rear seats, a 12.3-inch infotainment system, and a 360-degree camera. The GLS also offers a range of safety features, including adaptive cruise control, lane departure warning, and automatic emergency braking.

AI

write 250 words on the history of the Mercedes GLS in the style of Shakespeare

Oh, fair ladies and gentlemen, listen to the tale
Of a carriage that hath journeyed through time and prevail.
A creation of metal, a feat of design and art,
The Mercedes GLS, with a story that doth impart.

In the year of our Lord, two thousand and six,
The GL-Class did debut, a true carriage of tricks.
A sport-utility vehicle, a luxurious ride,
A king among carriages, with style to provide.

And in the year of our Lord, two thousand and twelve,
The GL-Class underwent a change, a transformation to delve.
An upgrade was made, with features more refined,
Thus the GLS was born, with greatness enshrined.

A carriage that doth carry a name of great worth,
The S stands for S-Class, the top model on earth.
A new era did begin, with the GLS leading the way,
A mighty carriage, a symbol of luxury every day.

The GLS hath journeyed through time, through twists and turns,
With features that doth impress and luxury that doth burn.
From the GL450 to the GLS580, with engines that doth roar,
A carriage that doth not falter, with power to explore.

And so, dear friends, the story of the Mercedes GLS hath been told,
A carriage that hath withstood the test of time, a tale to unfold.
A symbol of luxury, a carriage that doth lead the way,
The Mercedes GLS, a masterpiece in every way.

what are the most popular local automotive directories in new jersey?

As an AI language model, I do not have access to real-time data or search results for local automotive directories in New Jersey. However, here are some popular local automotive directories in New Jersey that you can consider:

1. NJ Car Buyer - An online directory that provides listings of car dealerships and services in New Jersey, including new and used car dealerships, auto repair shops, and car rental services.
2. Jersey Car Cash - An online directory that provides listings of car dealerships and services in New Jersey, including new and used car dealerships, auto repair shops, and car rental services.
3. New Jersey Auto Mall - A directory that features listings of dealerships for new and used cars, trucks, and SUVs in New Jersey.
4. New Jersey Automotive - An online directory that provides listings of car dealerships and services in New Jersey, including new and used car dealerships, auto repair shops, and car rental services.
5. NJ Auto Dealers Directory - A directory that provides listings of car dealerships in New Jersey, organized by city or region.

It's important to note that these directories may not be the most popular or comprehensive in the region, and there may be others that are more relevant to your specific needs. It's always a good idea to conduct your own research and compare multiple sources before making any decisions.

Use Cases for AI: Advanced SEO

AL Write me a Google Apps Scripts that takes URLs in Column A, and - lists the external links each URL has

Certainly! Here's a basic Google Apps Script that takes URLs in Column A of a Google Sheets spreadsheet and lists the external links each URL has in adjacent columns. Make sure you follow these steps:

1. Open your Google Sheets document.
2. Click on "Extensions" in the menu bar.
3. Select "Apps Script."
4. Replace any code in the script editor with the following code.
5. Save the project and run the function `processUrls`.

```
javascript Copy code

function processUrls() {
  var sheet = SpreadsheetApp.getActiveSheet();
  var urls = sheet.getRange("A:A").getValues(); // Assuming URLs are in Column A
  var outputColumnOffset = 1; // Number of columns to offset for external links

  for (var i = 0; i < urls.length; i++) {
    var url = urls[i][0];
    if (url) {
      var externalLinks = getExternalLinks(url);
      sheet.getRange(i + 1, outputColumnOffset + 1, 1, externalLinks.length).setValues([externalLinks]);
    }
  }
}

function getExternalLinks(url) {
  var response = UrlFetchApp.fetch(url);
  var content = response.getContentText();
  var links = content.match(/<a\s+(?=[^>]*\s)?href=("["]{0,1}.*?)[1/g];
  var externalLinks = [];

  if (links) {
    for (var i = 0; i < links.length; i++) {
      var href = links[i].replace(/<a\s+(?=[^>]*\s)?href=("["]{0,1}.*?)[1/g, "");
      href = href.replace(/"/g, "");
      if (href.startsWith("http://") || href.startsWith("https://")) {
        externalLinks.push(href);
      }
    }
  }
}
```

Use Cases for AI: Reputation Management

 what's better for a family with kids under 3 and a dog, bryce canyon or X   

[Converse](#) [Shopping](#) [Images](#) [Videos](#) [News](#) [Maps](#) [Books](#) [Flights](#) [Finance](#)

 Generative AI is experimental

Both Bryce Canyon and Arches National Parks are family-friendly. Although both parks prohibit dogs on unpaved trails, Bryce Canyon has two paved trails that allow dogs.

Bryce Canyon has distinctive features like hoodoos, natural bridges, and waterfalls. At the visitor center's interactive exhibits, children can learn about the geology, wildlife, and people of the area. You can bring your dog on the paved sections of both the Rim Trail and the Shared Use Path, both of which are also stroller-friendly.

At Arches, children may enjoy the rock formations, and some say that Arches has more variety than Bryce Canyon. Pets aren't allowed on any trails, though they are allowed at campgrounds, pullouts, roads, and parking lots.

Both parks offer guided tours, ranger-led programs, picnic areas, and restrooms, and both parks require pets to be leashed.

[Ask a follow up](#) [How long to spend at Bryce Canyon with kids?](#) [How many days do you need in Arches National Park for kids?](#)

Use Cases for AI: PPC Campaign Ideas

AI

what google ads campaigns should a car dealership run

As an AI language model, I can provide some general recommendations for Google Ads campaigns that a car dealership could run to promote their business and increase sales.

Here are some ideas:

1. **Search Ads:** These are the most common type of Google Ads, where your ads are shown to people who are actively searching for keywords related to your business. For a car dealership, you could target keywords such as "new cars for sale," "used cars near me," or "car dealerships in [your city]." Make sure to include ad copy and landing pages that highlight the unique features and benefits of your dealership.
2. **Display Ads:** Display ads are shown on websites that are part of the Google Display Network, which includes millions of websites and mobile apps. You can use display ads to build brand awareness and promote specific car models or promotions. You can target specific audiences based on interests, demographics, or behaviors, and create visually engaging ads that showcase your cars and dealership.
3. **Video Ads:** Video ads can be shown on YouTube and other Google partner sites, and can be a great way to showcase your cars and dealership in action. You can create videos that highlight your inventory, provide virtual tours of your showroom, or feature customer testimonials. You can target specific audiences based on demographics, interests, or behaviors, and track engagement metrics such as views and click-through rates.
4. **Remarketing Ads:** Remarketing ads target people who have already visited your website or engaged with your dealership in some way. You can use remarketing ads to show personalized ads to people who have abandoned a car purchase or visited specific pages on your website. Remarketing ads can help you re-engage potential customers and remind them of your unique offerings and promotions.
5. **Local Inventory Ads:** Local inventory ads are a type of Google Shopping ad that show specific cars and their availability at your dealership. You can create feeds of your inventory and target specific audiences based on location and other factors. Local inventory ads can be a great way to showcase your inventory and drive in-store traffic to your dealership.

Use Cases for AI: PPC Keyword Ideas

AL

give me a list of buyer-intent keywords for used lexus SUVs

Sure, here is a list of buyer-intent keywords for used Lexus SUVs that potential buyers might use when searching online:

1. Used Lexus SUV for sale
2. Pre-owned Lexus SUV deals
3. Affordable used Lexus SUVs
4. Best price on used Lexus SUV
5. Low mileage used Lexus SUV
6. Reliable pre-owned Lexus SUV
7. Certified used Lexus SUVs
8. Top rated used Lexus SUVs
9. Used Lexus luxury SUVs
10. Bargain used Lexus SUVs
11. Second-hand Lexus SUV offers
12. Quality pre-owned Lexus SUVs
13. Used Lexus hybrid SUVs
14. Lexus SUV under [price range]
15. Used Lexus RX [model year]

Use Cases for AI: PPC Ad Group Ideas

AL

organize them into ad groups

Certainly! Here's how you could organize the buyer-intent keywords into different ad groups for your used Lexus SUVs campaign:

Ad Group 1: General Used Lexus SUVs

- Used Lexus SUV for sale
- Pre-owned Lexus SUV deals
- Affordable used Lexus SUVs
- Best price on used Lexus SUV
- Reliable pre-owned Lexus SUV
- Certified used Lexus SUVs
- Top rated used Lexus SUVs
- Bargain used Lexus SUVs

Ad Group 2: Specific Lexus SUV Models

- Used Lexus RX [model year]
- Pre-owned Lexus NX [model year]
- Buy used Lexus GX [model year]
- Lexus LX [model year] used for sale

Ad Group 3: Financing and Payment Options

- Used Lexus SUV financing options
- Low-interest used Lexus SUV loans
- Used Lexus SUV with low down payment

Ad Group 4: Features and Specifications

- Used Lexus SUV with AWD/4WD

Use Cases for AI: PPC A/B Testing

AL My ad headline is Certified Lexus LX SUVs | View Pre-Owned Inventory. Write me 10 variants to test against

 Of course, here are 10 additional variations of your ad headline for Certified Lexus LX SUVs that you can test:   

1. Explore Certified Lexus LX SUVs | Browse Pre-Owned Inventory
2. Unveiling Certified Lexus LX SUVs | Discover Pre-Owned Collection
3. Elevate Your Drive: Certified Lexus LX SUVs | See Pre-Owned Models
4. Luxury Redefined: Certified Lexus LX SUVs | View Pre-Owned Inventory
5. Uncover Excellence: Certified Lexus LX SUVs | Explore Pre-Owned
6. Discover Certified Lexus LX SUVs | Shop Pre-Owned Inventory Now
7. Certified Lexus LX SUVs for Sale | Explore Pre-Owned Inventory
8. Elevate Your Journey: Certified Lexus LX SUVs | Browse Pre-Owned
9. Experience Luxury: Certified Lexus LX SUVs | Explore Pre-Owned
10. Unveil Prestige: Certified Lexus LX SUVs | Discover Pre-Owned Inventory

Remember to A/B test these variations to determine which headline performs the best and resonates most with your target audience. This will help you optimize your ad campaign for better results.

AL

can you write me code for a google apps script that grabs the call report from google ads for the last 90 days, given a set of google ads ids

Sure, here's some example code in Google Apps Script that should grab the call report from Google Ads for the last 90 days, given a set of Google Ads IDs:

```
sql Copy code

function getCallReport() {
  var adsIds = ['ID1', 'ID2', 'ID3']; // Replace with your own Google Ads IDs
  var report = AdsApp.report(
    "SELECT Date, CallLengthInSeconds, CallerId, CallStatus, CampaignName, AdGroup
    FROM CALL_METRICS_CALL_DETAILS_REPORT " +
    "WHERE CampaignId IN [" + adsIds.join() + "] AND Date DURING LAST_90_DAYS"
  );
  var rows = report.rows();
  while (rows.hasNext()) {
    var row = rows.next();
    Logger.log("Date: %s, Call Length: %s, Caller ID: %s, Call Status: %s, Campaign: %s",
      row["Date"], row["CallLengthInSeconds"], row["CallerId"], row["CallStatus"], row["CampaignName"]);
  }
}
```

This script uses the `AdsApp` service in Google Apps Script to fetch the
`CALL\_METRICS\_CALL\_DETAILS\_REPORT` table. It filters for the specified Google Ads IDs, with a filter for

Use Cases for AI: Automation

AL

write me a google ads script that lists all landing pages on a google sheet and checks the status code of them in column b. tell me how to run this script on a routine daily. and i want an email for all pages that are 404 or other status code error.

Sure! Here's an example Google Ads script that lists all landing pages on a Google Sheet, checks the status code of each page in column B, and sends an email for all pages that return a 404 or other status code error:

```
function main() {  
  var sheet = SpreadsheetApp.getActiveSpreadsheet().getActiveSheet();  
  var data = sheet.getDataRange().getValues();  
  
  for (var i = 0; i < data.length; i++) {  
    var url = data[i][0];  
    var response = UrlFetchApp.fetch(url, {muteHttpExceptions: true});  
    var statusCode = response.getResponseCode();  
    sheet.getRange(i + 1, 2).setValue(statusCode);  
  
    if (statusCode === 404 || statusCode >= 500) {  
      var message = "Page " + url + " returned a " + statusCode + " error.";  
      MailApp.sendEmail({  
        to: "your_email_address",  
        subject: "404 Error on Landing Page",  
        body: message  
      });  
    }  
  }  
}
```

To run this script on a routine daily, you can set up a trigger in Google Apps Script. Here are the steps:

1. In the script editor, click on the  Regenerate response button.
